www.deq.virginia.gov/Programs/Water/StormwaterManagement/VSMPPermits/ConstructionGeneralPermit.aspx

- A copy of the 2014 General Permit for Discharges of Stormwater from Construction Activities.
- Single Family Detached Residential Structure Coverage Letter.

Governing with Vision

to be the most collaborative, professional, value-driven locality in Virginia

www.campbellcountyva.gov

Post construction runoff from the property shall be minimized to the maximum extent practicable and shall be controlled to prevent flooding or erosion damage from occurring on adjacent downstream properties. In meeting this requirement, I agree to direct:

- Runoff from rooftops as non-erosive sheet flow to well vegetated areas on the property to the maximum extent practicable,
- Runoff from on-lot impervious surfaces (driveways, parking areas) as non-erosive sheet flow to well vegetated areas on the property to the maximum extent practicable,
- Runoff from lawns as non-erosive sheet flow to undisturbed naturally vegetated areas on the property to the maximum extent practicable.

Terms and Conditions of this Agreement

In place of a Stormwater Management Plan for the construction of this single family detached residential structure, I agree to comply with the requirements of this “Agreement in Lieu of a Stormwater Management Plan” or other requirements as established by Campbell County when necessary, to ensure compliance with the applicable post-construction stormwater management provisions of the Virginia Stormwater Management Program (VSMP) Regulations.

I fully understand that not complying with this “Agreement” may result in the revocation of this agreement and the Land Disturbance Permit that is associated with this project. If this agreement is revoked, the submission of a project specific Stormwater Management Plan in accordance with 9VAC25-870-55 of the VSMP regulations may be required.

This “Agreement in Lieu of a Stormwater Management Plan” does not authorize land disturbance. Land disturbing activities cannot begin until a Land Disturbance Permit has been issued by Campbell County.
